The applicant shall be responsible for establishing safety measures sufficient to protect the traveling public from any and all harm.

The applicant will hold the City of La Junta harmless from any and all claims which may arise from the construction.

The applicant shall inform the City of La Junta of construction methods, equipment and operational procedures that will be utilized and obtain the permittors concurrence.

The applicant shall notify the City of La Junta forty eight (48) hours in advance of the date work will be started. In the case of emergencies the applicant shall make notification as soon as practical, describing the nature of the emergency. (NO LATER THAN 5 P.M. ON THE NEXT WORKING DAY)

The applicant shall return the Right of Way to its original condition and shall remove all rubbish and debri following completion.

Holes dug in the Right of Way must be filled with flowable fill prior to patching.

The street shall be patched with asphalt (4" minimum thickness) within **48 HOURS** after work has been completed. If asphalt is not available the construction site will remain covered with a trench plate until the street can be repaired.

This is to certify that the person signing this application _____
above conditions. Authorized Signature

Issuance of this permit is an acknowledgement of the intent to do work in a public Right of Way and in no way is it implied that the City of La Junta is liable or responsible for said work.

The City of La Junta reserves the right to test the backfill compaction using the method described in the minimum standards which are available in the City of La Junta Engineering office.

CITY OF LA JUNTA
